## EXPERIENCE

### Ibtikar, Iraq — Frontend Developer | UI/UX designer

Oct 2023 - PRESENT

- Developed and designed a range of websites from scratch, including e-learning platforms, trading platforms, property listing sites, landing pages, and dashboard interfaces.

### Computiq, Iraq — Coding instructor

Jan 2022 - Mar 2023

- Assisted in delivering a **Meta certificate program** to approximately 50 frontend developers.
- Led coding workshops, teaching 12 female students from **the American University of Iraq Sulaimani** the fundamentals of Frontend development.

### Freelance, Remote — Frontend Developer

May 2021 - Present

- Collaborated with **Schoodles** to develop and implement custom WordPress themes and plugins, aimed at improving website functionality.
- Designed and developed several websites for Journey organization: a social platform and ICP (**Iraqi Competitive Programming**), the first of its kind in Iraq.

### Bloom Academy, Remote — Project coordinator

Aug 2020 - April 2021

- Established and managed effective gap year programs for Iraqi students.
- Emphasized personal development and intercultural engagement beyond basic tourism.
- Cultivated a secure and inclusive environment for all participants.
- Resolved any issues encountered during the program.
- Facilitated student integration into the local community..
